Keep your files private, or send your download links only to friends or family. When you use file, you avoid storing the file you're sending in your cloudstorage or mail server. You can upload any type of file (movies, music, documents, images, zip files and more). Any file in any format can be uploaded anddownloaded for free. There are no restrictions on the number of times a file can be downloaded. You decide who you want to share your files with. Files can bedownloaded from any computer from our high speed servers. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costingyou money in data storage fees. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits tothe size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your team chat service. Alternatively you can choose to share your download links on blogs, forums and social networking sites. filehosting provides an easy possibility for you to sendlarge files to your friends. It is also allowed to link to the download page from websites and communities. Just upload the file you want to share with yourfriends and we send you a download link to your file. We have no file size limit. If only we could, we surely would! On the other hand, using file can actuallysave you money. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device. Simply upload your file and share the link. Our service is completely free foreveryone. Unfortunately, we can't make that part free. You don't need any special software installed to be able to download your files. The cost of that datatransfer is covered by your internet service or the data plan on your phone. No account or credit card is required to get started. This is easy, fast and reliablefilehos
