You can upload any type of file (movies, music, documents, images, zip files and more). File is free to use with no gotchas and no hidden fees. So try our free and simple filehosting service now. We have no file size limit. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friend's device. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Files can be downloaded from any computer from our high speed servers. Using file, you can circumvent those limits without paying to upgrade your team chat service. Unfortunately, we can't make that part free. Simply upload your file and share the link. It is also allowed to link to the download page from websites and communities. No account or credit card is required to get started. You decide who you want to share your files with. If only we could, we surely would! On the other hand, using file can actually save you money. The cost of that data transfer is covered by your internet service or the data plan on your phone.
