Maybe even better than free.

It is also allowed to link to the download page from websites and communities. Simply upload your file and share the link. You decide who you want to share your files with. Any file in any format can be uploaded and downloaded for free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Our service is completely free for everyone. So try our free and simple filehosting service now. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instant messenger. No account or credit cardis required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. filehosting provides an easy possibility for you to send large files to your friends. You don't need any secial software installed to be able to download your files. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. There are no restrictions on the number of times a file can be downloaded. Alternatively you can choose to share your download links on blogs, forums and social networking sites. The cost of that data transfer is covered by your internet service or the data plan on your phone. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also,many team chat apps have limits to the size of files that can be transferred within their apps. Keep your file. We have no file size limit. You canupload any type of file (movies, music, documents, images, zip files and more). Using file, you can circumvent those limits without paying to upgrade yourteam chat service. File is free to use with no gotchas and no hidden fees. Files can be downloaded from any computer from our high speed servers. If only wecould,
