Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. filehosting provides an easy possibility for you to send large files to your friends. Any file in any format can be uploaded and downloaded forfree. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. If only we could, we surely would! On the other hand, using file can actually save you money. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Unfortunately, we can't make that part free. We have no file size limit. Simply upload your file and share the link. Keep your files private, or send your download links only to friends or family. No account or credit card is required to get started. Using file, you can circumvent those limits without paying to upgrade your team chat service. You can give this download link to your friends by mail or instant messenger. Files can be downloaded from any computerfrom our high speed servers. File is free to use with no gotchas and no hidden fees. When you use file, you avoid storing the file you're sending in your cloudstorage or mail server. Just upload the file you want to share with your friends and we send you a download link to your file. The cost of that data transfer iscovered by your internet service or the data plan on your phone. You don't need any special software installed to be able to download your files. You can uploadany type of file (movies, music, documents, images, zip files and more). You decide who you want to share your files with. So try our free and simplefilehosting service now. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits
