Files can be downloaded from any computer from our high speed servers. You can upload any type of file (movies, music, documents, images, zip files and more). Just upload the file you want to share with your friends and we send you a download link to your file. Why pay storage fees for a file that you justwanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Any file in anyformat can be uploaded and downloaded for free. We have no file size limit. File is free to use with no gotchas and no hidden fees. There are no restrictions onthe number of times a file can be downloaded. So try our free and simple filehosting service now. It is also allowed to link to the download page from websitesand communities. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want to share your files with. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. You can give this download link toyour friends by mail or instant messenger. Alternatively you can choose to share your download links on blogs, forums and social networking sites. No accountor credit card is required to get started. Using file, you can circumvent those limits without paying to upgrade your team chat service. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free. If only we could, we surely would! On the other hand, using file can actually save you money. Your wallet will be none-the-lighter! Just so we're all 100% clear here:

When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. filehosting provides an easy possibility for you to send large files to your friends. Our service is completely free for everyone. You don't need any special software
