Files can be downloaded from any computer from our high speed servers. filehosting provides an easy possibility for you to send large files to your friends. You can upload any type of file (movies, music, documents, images, zip files and more). Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. It is also allowed to link to the download page from websites and communities. So try our free and simple filehosting service now. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. There are no restrictions on the number of times a file can be downloaded. Simply upload your file and share the link. Our service is completely free for everyone. If only we could, we surely would! On the other hand, using file can actually save you money. You can give this download link to your friends by mail or instant messenger. Unfortunately, we can't make that part free. We have no file size limit. Any file in any format can be uploaded and downloaded for free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You decide who you want to share your files with. The cost of that data transfer is covered by your internetservice or the data plan on your phone. Just upload the file you want to share with your friends and we send you a download link to your file. Using file, youcan circumvent those limits without paying to upgrade your team chat service. File is free to use with no gotchas and no hidden fees. No account or credit cardis required to get started. Keep your files private, or send your download links only to friends or family. You don't need any special software in
