Maybe even better than free.

No account or credit card is required to get started. You decide who you want to share your files with. We have no file size limit. You can give this download link to your friends by mail or instant messenger. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you moneyin data storage fees. It is also allowed to link to the download page from websites and communities. Why pay storage fees for a file that you just wanted to sendto a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. There are no restrictions on thenumber of times a file can be downloaded. The cost of that data transfer is covered by your internet service or the data plan on your phone. So try our free andsimple filehosting service now. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from ourservers to your friends device. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer fromour high speed servers. Unfortunately, we can't make that part free. File is free to use with no gotchas and no hidden fees. You can upload any type of file(movies, music, documents, images, zip files and more). filehosting provides an easy possibility for you to send large files to your friends. Our service iscompletely free for everyone. You don't need any special software installed to be able to download your files. Just upload the file you want to share with yourfriends and we send you a download link to your file. Simply upload your file and share the link. If only we could, we surely would! On the other hand, usingfile can actually save you money. Using file, you can circumvent those limits without paying to upgrade your team chat service. Any file in any format can beuploaded and downloaded for free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Alternatively you can choose toshare your download links on blogs, forums and social networking sites.
