The cost of that data transfer is covered by your internet service or the data plan on your phone. You don't need any special software installed to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your team chat service. Simply upload your file and share the link. You can upload any type of file (movies, music, documents, images, zip files and more). It is also allowed to link to the download page from websites and communities. We have no file size limit. If only we could, we surely would! On the other hand, using file can actually save you money. You decide who you want to share your files with. filehosting provides an easy possibility for you to send large files to your friends. So try our free and simple filehosting service now. There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends or family.
