## Aplicaciones con Interfaz Gráfica de Usuario con NetBeans

### Creación de un Proyecto

Para crear un programa con una interfaz de usuario gráfica en Java utilizando NetBeans lo primero que hay que hacer es crear un proyecto. Un proyecto nos permite administrar los archivos con el código fuente y compilando los Java aplicaciones. Para crear un proyecto se sigue el siguiente procedimiento:

1. Ejecuta el programa NetBeans. Al hacerlo aparecerá la ventana principal del programa como se muestra en la Figura 1.

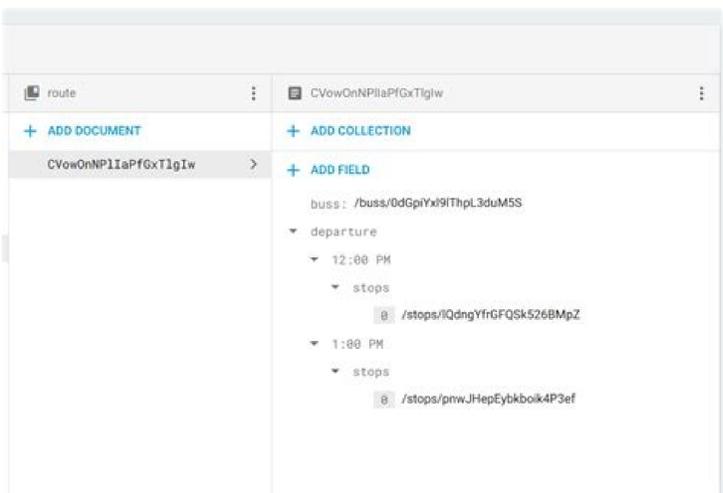

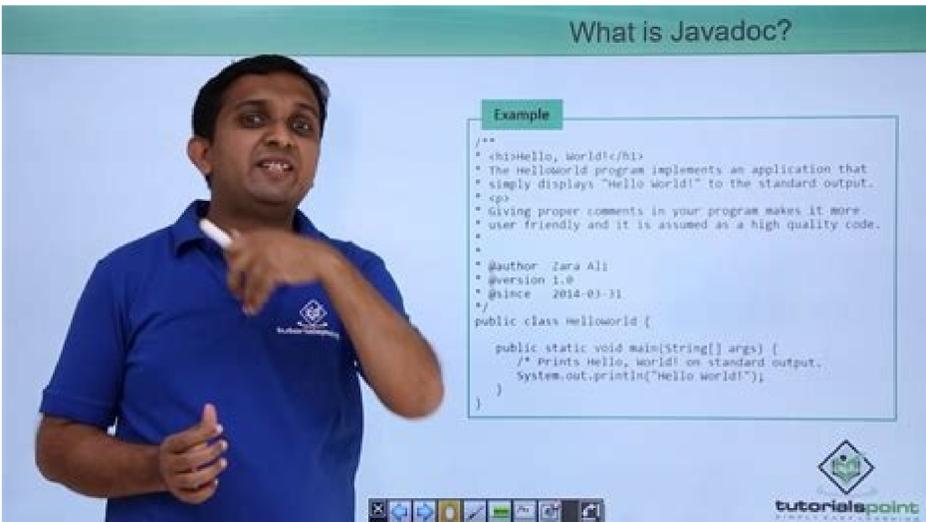

Figura 1

2. En el menú principal de NetBeans selecciona la opción File/New Project... y presiona las teclas Ctrl + Shift + N para crear un nuevo proyecto. El diálogo que se muestra en la Figura 2.

FIGURA

Manuel Estrella Rivas

Javafx 11 documentation download, Java se 11 documentation download, Java platform standard edition 11 documentation, Java 11 documentation pdf, Java 11 documentation string, Java 11 documentation api, Cognos 11 javascript documentation, Javafx 11 documentation.

Oracle Corporation and its affiliates are not responsible for expressly discussing all the guarantees of any kind compared to the contents, products and services of third parties unless otherwise specified in an agreement applicable between you and Oracle. Java component page looking for a different version? Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. AMD, Opteron, the AMD logo and the AMD Opteron logo are trademarks or registered trademarks of advanced micro devices. Oracle Corporation and its affiliates will not be responsible for any losses, costs or damage incurred due to your access or use of content, products or third-party services, unless indicated in an agreement applicable between you and Oracle. JDK The Java Development API Kit (JDK) is specific to JDK and will not necessarily be available in all implementations of the Java if. As such, use, duplication, disclosure, modification and adaptation of programs, including any operating system, integrated software, any program installed on the hardware and / or documentation, is subject to license terms and license restrictions applicable to programs. NOTICE of the Oracle and Java brand are registered trademarks of Oracle and / or its affiliates. Other releases all rights reserved. If you find any errors, please report them in writing. Reverse engineering, disassembly or decompilation of this software, unless it is required by the law for interoperability, it is prohibited. Hazardous applications Note that this software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in intrinsically dangerous applications, including applications that can create a risk of personal injury.
