Turn the rotary switch one more click CW to select end of cycle volume, adjust and set the rotary switch to off to leave set up mode. Disconnect the drain hoses Also make sure you're using the Also disconnect the drain hose from This will tell you if Assuming that your filter is clean. Pressing the temperature button twice shows a snowflake and sets a defrost function. Thanks for using FixYa a 4 THUMBS rating is appreciated for answering your FREE question I found out last night after being woken up by endless beeping. Login to post Where your hand meets the handle inside the door drum shove the fork in to force the clip open. Not the outer edge of the door, there's no locking system there behind the actual handle. I found out last night after being woken up by endless beeping. I think I can solve it. Thanks for contacting fixya.com Once the beep has stopped, release the button and voila, no more annoying beeps at the end of your cycle. To restore the end of cycle notification beep do the same thing as described above, but release the button earlier while the beep is still going. We have a WA 111 Indiset washing machine that catches on rubber seal on spin cycle Hi wonder if anyone can help please. Managed to fix the rubber door seal back onto the drum. So tried another wash.
